

**Are you the kind of skipper  
people want to sail with?**

## **SKIPPER'S VOYAGE**

Two-day yacht-based training on which you will learn  
to lead a crew so they really want to sail with you.

# Learn to be the skipper your crew deserves

It is demanding enough to just sail a boat, but then there is your crew to keep happy. Whilst RYA qualifications and practical experience equip you to sail they teach you little about how to transform your crew into a high performing team and even less about how to be the kind of skipper that people want to sail with.

## Do you

Get stressed because people don't do what you ask? Have to resort to shouting sometimes? Feel competitive and then frustrated that your crew under performed?

## And then

Worry that people might not have enjoyed sailing with you? Wish that everyone you sail with felt as passionate as you do? Struggle to get crew?

## Learn to lead

Join our 2-day yacht based course and learn how to lead your crew using the TRIBE team performance system, developed at the Centre for Team Excellence and used in more than 40 organisations around the world including the Royal Navy, Army & RAF. You will learn to:

- Motivate and engage your crew, even before they arrive on the boat.
- Develop enthusiasm and passion for sailing and teamwork.
- Lead a crew that everyone feels proud to be part of.

## Who is it for?

If you have RYA skipper qualifications but realise that you now need to learn how to lead your crew, or have some skippering experience but would like to learn how to make sailing more fun and successful for everybody, then this training is for you.
